CONTENTS

Volume 1, Issues Nos 1–4

PACKAGING TECHNOLOGY AND SCIENCE

ISSUE No. 1 January–March 1988

Editorial: Frank A. Paine 1

Comment: Combating the Anti-Packaging Lobby: Palabras 3

Product Fragility and Damage Boundary Theory: G. J. Burgess 5

The Evaluation of Global Migration and the Assessment of Related Parameters by a Spectrophotometric Methodology: F. Lóx, R. de Smet, A. Walden and V. Machiels . . . 11

Modified Atmosphere Packaging of Pita (Pocket) Bread: Y. Avital and C. H. Mannheim . . 17

Converting Cracks in Corrugated Board. Effect of Liner and Fluting Properties: S. I. Cavlin and B. Edholm 25

The Tightness of Retail Packaging: a Selection of Test Methods to be Used for a Wide Range of Packed Products: P. Camus, P. Mullot and M. Veaux 35

News Items from Around the World 43

Centre for Food and Pharmaceutical Packaging Research 44

Toxicity Profiles: The British Industrial Biological Research Association 45

Recent Developments in the Production of Stronger Glass Containers: P. J. Doyle. 47

ISSUE No. 2 April–June 1988

Editorial: F. A. Paine 55

The Effect of Relative Humidity on the Permeability of Toluene Vapour through a Multi-layer Coextruded Film Containing Hydrophilic Layers: K. J. Liu, J. R. Giacin and R. J. Hernandez 57

Assuring Successful Bonding to Carton Boards: D. A. Shires 67

A Database of Packaging Laboratory Test Equipment: J. Salisbury 73

The Unique Convertibility of Paperboard: S. I. Cavlin 77

Recycling of Plastic Packaging in the United States: S. E. Selke 93

Packaging Dangerous Goods for Transport: H. Mostyn 99

Highlights from the Recent Literature 105

New Items from Around the World 113

ISSUE No. 3 July–September 1988

Editorial: F. A. Paine 115

Release of Components from a Plastic Container during Microwave Heating: L. Dixon-Anderson, R. J. Hernandez, I. Gray and B. Harte 117

Filling Characteristics and Dosing Accuracy of Volumetric Dosing Devices in Vertical Form-Fill-Seal Machines: H. J. Hohmann 123

Mechanical Stresses on Products During Air Cargo Transportation: T. Trost 137

Developments and Applications of Recycled Plastics (A Conference Report): C. C. Lai and S. E. Selke 157

Military Packaging in the UK Today: P. M. B. Slate and R. S. Freeman 161

Letter to the Editor 169

Book Review 171

News Items from Around the World 173

ISSUE No. 4 October–December 1988

Editorial: F. A. Paine 175

Study of the Polyvinyl Chloride Polymer Structure in Relation to Migration of Residual Vinyl Chloride Monomer by Inverse Gas Chromatography: D. Apostolopoulos and S. G. Gilbert 177

Display of Faces: a New Way to Interpret Multivariable Numerical Data: U. Ernst 185

Design of a Test Method to Simulate the Stresses Encountered by Packaging During Sea Transport: P. André and M. Veaux 211

Book Reviews 215

Highlights from the Recent Literature 219
